

EXPERIENCE

01. UX/UI Designer Freelancer

December 2020 – Current

As a freelancer for UX/UI design, I work with clientele and make their dreams come to life through digital and physical products. I listen carefully to their feedback about their wants, needs, and pain points to solve current problems in today's modern world. A finished successful product usually equals a smile on their faces as they wear or use products I designed for them.

02. Senior UX/UI Design and FSF Tutor, Instructional Specialist, and Grader edX / 2U

November 2020 – Current

As a Senior UX/UI Design Tutor, I guide students through the design thinking process and front-end web development. My favorite part about this job is that I can see their imaginary "light bulbs" turn on when they realize certain concepts are much easier than at first glance. With this clearer knowledge, I help provide a global positive impact to others.

SKILLS

User Research, Design Thinking Process, Interviews, User Personas, Affinity Diagrams, Empathy Maps, User Journey Maps, Sketches, Wireframing, Unit Testing, Style Guides, Design Systems, A/B Testing, Prototyping, Figma, FigJam, Adobe CC, Sketch, Miro, Slack, Zoom

HTML/CSS, SCSS, Bootstrap, Material UI5

JavaScript, React JS, MongoDB, Express.JS, Node.JS

03. UX/UI Designer

Codafi Technologies

September 2020 – November 2020

We worked on agile design sprints as a team which included research, definition and ideation, wireframing, prototyping, and testing. We designed and updated our client's style guides and feature requests with focus on lean UX and visual hierarchy so that customers can find information more quickly without as much headache.

04. UX/UI Designer && Developer Intern The Family Literacy Centers

May 2018 – December 2020

I worked on UX/UI design sprints which included research, definition and ideation, wireframing, prototyping, and testing. I redesigned their Algebra 1 program to have a modern layout so that their online students can have an easier time finding information. I also updated it to fit HTML5 and CSS requirements so that the company can operate the program on multiple browsers and reach more students.

EDUCATION

Web Design and Development

Bachelor's Degree

2017 – 2021

Utah Valley University

UX/UI Design Certificate

DevMountain

2016 – 2016
