EXPERIENCE

01. UX/UI Designer Freelancer
      December 2020 - Current

- I make dreams come true through digital and physical products.
- I listen carefully to to feedback about wants, needs, and pain points to solve current problems in today's modern world.
- A finished successful product usually equals a smile on their faces as they wear or use products I designed for them.

02. Senior UX/UI Design and FSF Tutor, Instructional Specialist, and Grader
      edX / 2U
      November 2020 - Current

- I make student lives' easier by explaining difficult UX/UI design and Full-Stack Web Development concepts to them
- I manage individual and group projects in a fast-paced environment
- I instruct design thinking process concepts such as how to use Figma, storytelling, minimum viable product, lean start-up process, agile and scrum methods
- I help facilitate a positive learning atmosphere in a challenging environment.

03. UX/UI Designer
      Codafi Technologies
      September 2020 - November 2020

- We worked on agile design sprints as a team
- We designed and updated our client's style guides and feature requests with focus on lean UX and visual hierarchy for better usability.
- Turned software into easy-to-use products
- Executed all design stages from concept to final hand-off to engineering

04. UX/UI Designer && Developer Intern
      The Family Literacy Centers
      May 2018 - December 2020

- Direct clientele communication with deadlines and UX/UI design sprints
- I provided modern layout so that online students can have an easier time finding information.
- I also updated it to fit HTML5 and CSS requirements so that the company can operate the program on multiple browsers and reach more students.
